STREETS Projects Application Call

In the field of Erasmus+, *KA210-VET-Small-scale partnerships in vocational education and training*, is now opened a call for the formation program named **STREETS** “**Synergic TR**aining to **E**nhance **E**ntrepreneurial and **T**echnological **S**kills”. The program offers a free path of training and mentoring, lasting 30 hours, with the aim of appealing to young NEETs (Not in Education, Employment or Training) interest about entrepreneurship and digital technologies. The training course aims to develop soft skills in self-employment and digital innovation by combining theory and practice, working groups and workshop activities, especially in matters of home living and smart city. There will be a final contest to allow participants to present ideas developed during the training course and the workshops. The participants will be inspired to work as a team to encourage networking and socialization activities.

The program aims to increase personal growth opportunities and the employability of young people through the reduction of skills mismatch and the development of skills aimed at self-employment.

TERRITORIAL AREA OF ACTIVITY

The project will involve young NEETs of the whole national territory.

PARTICIPANTS

The training aim to select NEETs (18-29 years old) to include in a training course lasting 30 hours.

The participants shall have the following requirements:

- Age between 18 – 29 years old,
- Not engaged in other activities;
- Not engaged in other course study or professional training.

HOW TO APPLY

It's possible to apply to STREETS program completing the questionnaire present on the website www.streetserasmus.eu by the deadline of **August 31**, 2022.
